WORK

Carnegie Mellon University

Pittsburgh, PA

08/2024 – 05/2025

Graduate UX Research Assistant

Leading AI and design research to explore accessibility and ethics of AI in Design. Collaborating with academia and industry to translate insights into actionable, AI-driven design strategies.

Graduate Teaching Assistant

Delivered interactive UX workshops for graduate students focused on user-centered research, usability testing, and iterative prototyping and pushed high-fidelity solutions for clients like Netflix.

SpreeAI

Los Angeles (Client Project CMU)

08/2024 – 11/2024

Product Designer

Designed a Conversational AI design solution to enhance SpreeAI's product experience, by leading UX research, concept ideation, UX design, UI Design, prototyping, and stakeholder presentations.

Weave - UPMC

Pittsburgh, PA (Client Project CMU)

01/2024 – 03/2024

Product Designer

Designed a healthcare app for UPMC by conceptualizing UX, research and design features that addressed user pain points and delivered full-fidelity prototypes to stakeholders at UPMC.

Coditas

Pune, India

02/2023 – 07/2023

User Experience Designer

Enhanced enterprise SaaS products by upgrading UX/UI elements and refining design systems, resulting in a 1.5x increase in employee engagement.

Adapt-Wellness

Mumbai, India

01/2022 – 01/2023

Product Designer

Directed end-to-end product design and management for a mobile therapy app on iOS and Android, achieving a 4.8 rating and 5,000 users; conducted competitive analysis and UX research to deliver iterative, user-centric designs.
